# Site Hosting Template

To get you started, this is an explanation of the menus at the top of the screen and what you'll find within each:

- **Home** - that's this page! From whatever page you are on, clicking the HOME menu brings you back here.
- **Contact** - this is where you'll be able to reach the managers of this site.
- **Documents** - here you'll find any important documents or other relevant material for download here.
- **FAQs** - these are frequently asked questions from members of this site. If you have a question that isn't addressed here, send us a message on the CONTACT menu above and we'll do our best to answer it.
- **Photos** - here we'll post various photos of the community from time to time.
- **Events** - this is our community event calendar, and if you create a login you can be emailed when events take place. Clicking on an event in the calendar gives you more details about that event.
- **Members** - this is a listing of all the people that have created a login on our site so far, and if you click on their link you can see the information they've shared with the community. If you're logged in, you'll find several sub-menus under the Members menu to allow you to add pictures, YouTube videos, or even blog postings to share with the community.
- **CorkBoard** - here you can post messages to the site members, but you must be signed in to do so.
- **Login** - this is how you get more access to the site. If you don't already have a login, this is where you can create your own!
